I need to know if anyone in the U S Is even interested the idea, I'd hate to have zero business - Do you think bringing more Japanese fashion to the U.. These brands include unisex ones like Super Lovers and Sexy Dynamite When you see the giant posters of boys with teased colored hair and makeup, youre there.. At the bottom of this post, youll find more info about J-rock stores in Harajuku and Ikebukuro.

) Be sure to add my Instagram for previews of my Asia adventures Obviously, we were in the right place Any info would be greatly appreciated, Thank You.. There's also a very large Tsutaya nearby that sells a lot of stationery, manga, and cheap used FCSFC games.. One is located near the Southern Terrace and Shinjuku station south exit We picked up recent copies of Kera and Gothic Lolita Bible, and Yukiro even found Malice Mizer cds for about 2 each.. If so, the shop may be temporary closed, and there could be a long lineup of fans.. The CDs seem to be unsold ones from Book Off and way cheaper than any Book Off I went to (about 200-500 yen).. Many young people hang around, browsing for treasure, like this green haired girl.. I'm thinking of starting my own clothing business that specializes in Harajuku/Visual Kei/Lolita/Gothic/Victorian based fashion. 34bbb28f04
